### **DETAILED ACTION**

I. Rejection of claims 15,16,53-55,59,66,68-73 under 35 USC 112, 1<sup>st</sup> paragraph will not be maintained in light of amendment filed 11/28/06. The above claims have are cancelled.

II. New Rejection

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 74 and 77 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The invention comprising "wherein at least one of said R' groups is chosen from aryl groups ... unsaturated hydrocarbons" is new matter.

#### ***Allowable Subject Matter***

Claims 1,2,4,6-11,13-14,17,19,21-26,28-52 are allowable. The prior art does not teach or suggest the compounds wherein at least one R' is chosen from a linear and branched, unsaturated hydrocarbon comprising 2 to 22 carbon atoms and one C=C double bond. EP 996 029 discloses a compound of formulas (1) and (2) wherein R is a straight chain or branched hydrocarbon group. The hydrocarbon groups

recited in EP '029 are all saturated, whereas in instant invention R' (equivalent of R in EP '029) is unsaturated.
